

Single Faucet & Handle Outdoor Sink Supply List

In the second version of our outdoor sink, only one handle is active and water is supplied to one side of the faucet. You'll cap off the other side. We've included SKU numbers to the products from The Home Depot to make it easy for you to find the outdoor sink supplies. However, you may be able to find many of these parts from other retailers. Feel free to print out this parts list and bring it with you to your local hardware store!
